How To Select Your Graduation Photos

You'll need to select photos for three senior projects:

- Graduation Ceremony Program (1 photo)
- Graduation Ceremony Slideshow (12 photos)
- BHEA Yearbook – Senior ½ Page (5 photos)

Graduation Ceremony Program (1 photo)

Provide one headshot of your senior. You may use a professional senior photo or any clear, high-resolution image showing your student close up (upper body only) with minimal background. Low-resolution images do not print well.
A sample program page is shown to the right for reference.

Graduation Ceremony Slideshow (12 photos)

Provide twelve photos that tell your student's story. Most families choose photos that highlight birth through graduation. These photos will play in a slideshow before the ceremony, as guests arrive and are seated.

BHEA Yearbook Senior ½ Page (5 photos)

Provide five photos for the yearbook. If possible, the yearbook staff would request that you submit one photo in landscape (horizontal) photo with ample background , as this helps to create the backdrop for your student's bio. The remaining four photos can be any orientation.Sample yearbook layouts are shown below.
